

WORK SMARTER.

MODEL M

POWER
snappy

Powerful Electric Motors - The Power Snappy is driven by two 24v hub motors, one on each wheel. Each motor is rated at 6,000 hrs of use.

Integrated Brake System - The brake system is an auto-locking. This means that when the throttle is off, the Snappy automatically has the brakes applied.

Easy Charging - The on board charger can be easily be charged via the built in electric inlet.

Security - The integrated lock-out switch ensures proper use by qualified individuals and also adds to the security of the unit at the job site.

Quality Electrical Components - Industry standard Anderson Power Products connectors are used to ensure secure electrical connections with quick disconnect capabilities

AGM Batteries - Two 12 volt sealed AGM 35 Amp-Hour batteries power the unit. AGM batteries feature the latest in battery technology and provide exceptional life.

Maximum Safety - Complete guard rails are provided and open at both ends for easy boarding access.

Innovative Controls - Custom joystick steering has adjustable speed control. In addition, soft start/ stop are provided for safer operation. The joystick also includes built in error lights for quick and easy trouble shooting

Quick adjustability - G-pin and snap pin technology secures the arm braces on the power snappy.

IT IS THE IDEAL WORK PLATFORM FOR:

Electricians
Painters
Maintenance personnel
Schools
Hospitals
Office Buildings
Plus many more!

The Power Snappy takes up no more room than a standard 8' ladder.
